SUMMARY

I am a passionate Full-Stack and DevOps Engineer with expertise in Java, ReactJS, SQL, and C++. Proficient in Cloud Computing and Cybersecurity, I build secure, scalable, and high-performance solutions. With hands-on experience in PowerApps, Power BI, and Docker, I leverage modern tools to enhance business efficiency. Focused on SAP technologies, my goal is to develop resilient, enterprise-grade systems that drive digital transformation and optimize operations.

MAJOR PROJECTS

Dam Inspection and Monitoring System

02/08/2024 18/10/2024

Frontend Development:

- Developed a real-time monitoring system using React.js.
- Implemented responsive design with Bootstrap for better user experience.
- Visualization real-time data using Chart.js / D3.js.

Backend Development:

- Integrated Spring Boot & REST API for data processing and visualization.
- Implemented automated alerts for critical threshold notifications using Twilio / Firebase Cloud Messaging.
- Fetched real-time weather data using OpenWeather API.
- Used Random Forest Algorithm for water level predictions and ANN for anomaly detection.
- Managed historical data storage with MySQL.
- Deploying on AWS / Firebase for cloud hosting.

IRCTC Clone

10/08/2024 19/11/2024

Frontend Development:

- Developed a functional IRCTC clone with real-time train tracking using React.js.
- Designed a modern UI with Tailwind CSS for a seamless user experience.
- Integrated interactive maps for live train tracking using Leaflet.js / Google Maps API.

Backend Development:

- Used Spring Boot & REST API for backend operations and data processing.
- Integrated Rapid API for real-time train data fetching.
- Implemented secure user authentication and booking system using JWT / OAuth2.
- Managed train schedules, bookings, and user data with MySQL.
- Implemented Seat Allocation Algorithm for efficient ticket booking and seat assignment.
- Used Dijkstra's Algorithm for finding the shortest train routes.
- Deployed on AWS / Firebase for scalability and performance.

ACHIEVEMENTS

Shortlisted for the 2024 Smart India Hackathon (SIH) at the college level, demonstrating creativity and technical expertise.

KRISHINNOV 2K23: Secured 2nd place in a quiz competition, showcasing teamwork, analytical skills, and quick decision-making.

STRENGTHS

Analytical Skills
Strong analytical and problem-solving abilities.

Teamwork
Excellent team collaboration and communication.

Adaptability
Adaptable and quick learner.

Work Ethics
Detail-oriented with strong work ethics.

SKILLS

Frontend Development:

- Testing and debugging.
- Version control.

Backend Development:

- REST API Development.
- MongoDB.
- C++ and Java Programming.

DevOps & Cloud:

- Cloud Computing (AWS, Firebase).
- DevOps (CI/CD, Docker, Kubernetes).
- Git, GitHub.

Software Testing & Debugging:

- Unit Testing, Integration Testing.
- Performance Optimization.

EDUCATION

B.Tech in Information Technology

Sri Krishna College of Engineering & Technology
Cgpa: 8.07

08/2022 05/2026 Coimbatore

Higher Secondary Education (HSC)

ARR School Percentage: 82.83

06/2020 05/2022 kumbakonam

Secondary School Education (SSLC)

Cheran School Percentage: 87.40

06/2019 05/2020 Dindigul

LANGUAGES

English
Proficient

Tamil
Native

INTERNSHIP

Course: Full Stack Development

Organisation: NoviTech R&D Private Limited

19/06/2024 21/07/2024

Home Interior and Exterior Design Platform

Project Link: Comfort Home

Frontend Development:

- Skilled in HTML, CSS, JavaScript, React, and Bootstrap for creating responsive and dynamic UIs.
- Knowledgeable in UI/UX principles, ensuring user-friendly and accessible web applications.

Backend Development:

- Experienced in Java, Spring Boot, REST API, and SQL for building scalable backend solutions.
- Strong understanding of software testing, debugging, and performance optimization.

DevOps & Deployment:

- Proficient in GitHub for version control.
- Knowledgeable in Cloud Computing (AWS) for deployment.

EXTRA CURRICULAR ACTIVITIES

LeetCode: Solved 540+ problems by tackling daily challenges, enhancing proficiency in data structures and algorithms.

Continuous Learning: Regularly engage in reading technical articles, research papers, and books to stay updated with industry trends and advancements.

Competitive Programming: Participated in numerous coding contests across various online platforms, consistently improving problem-solving skills and algorithmic thinking.

CERTIFICATION

IBM DevOps and Software Engineering Professional Certificate

Coursera, Online Jan 2025 - Present.

Cyber Security

Infosys Springboard, Online Jun 2024 - Aug 2024.

Cloud Essentials

Google Cloud, Online Feb 2024 - Apr 2024

Machine Learning & Data Analytics

Infosys Springboard, Online

Dec 2023 - Jan 2024

Google Cloud Architect: Cloud Basics

Infosys Springboard, Online

Sep 2024 -Oct 2024
